

Jefferson High School

Winter Newsletter

4700 Alameda Ave.
El Paso, Texas

Mission Statement

We will ensure the success of all students by preparing students to graduate from high school, become productive members of society, and be prepared for continuing educational opportunities. "Jefferson High School is dedicated to educating students who are prepared to engage in 21st century technological activities as responsible digital citizens who participate safely, effectively, ethically, and respectfully in all aspects of digital life."

Parent Statement

I will ensure the success of my student by becoming an active stakeholder in his/her education. As a parent, I realize the importance of providing a strong academic foundation in the home that is conducive for learning. With this in mind, I promise to provide a safe and supportive learning environment. I will insure that my child attend school daily and on time, maintain open lines of communication with teachers and administrators, and promote the idea of academic excellence with a focus on college readiness.

Parental Engagement

Mission Statement

Our mission is to engage, educate and empower families, community and professional staff to facilitate effective family and community partnerships that foster the academic and personal development of all students, so that they may graduate prepared to succeed in their personal, academic, and professional endeavors.

Statement of Purpose

EPISD is committed to implementing the Dual Capacity Framework to build capacity to extend and build relationships between families, community members and educators for student success. Parents play an important role in building the skills and knowledge that contribute to the personal development of their children. EPISD is committed to providing family engagement opportunities that are easily accessible to all parents, in which academic and social and emotional learning opportunities are extended beyond the classroom.
