**Notification Letter  
6th-12th Grade Growth and Development Unit**

Dear Parent or Guardian:

We will soon begin a meaningful unit in Health Education entitled “Growth and Development, Understanding Sexually Transmitted Disease (STD) created by EPISD. Due to the sensitive nature of this instruction, as directed by the Texas Administrative Code (TAC), notification is required prior to student participation in the unit.

All students will be included unless we receive written notification using the form below. Those students not participating will be provided with our independent alternative, health education enrichment unit or another mutually agreed upon activity. The length of time spent on the alternative lessons will be the same number of days as the “Growth and Development, Understanding STD’s” Unit.

As always, we support you as the primary sexuality educator for your student, and we value your ability to place this information in a moral context.

Thank you for your cooperation in returning the attached permission slip promptly if you do not want your student to participate.

If you have any questions, please see your Health Education Teacher on campus.

Thank you

\_\_\_\_\_  
Please fill out and return this form if you DO NOT want your student to participate.

\_\_\_\_\_(Student’s Name) does NOT  
have permission to participate in the “Growth and Development, Understanding STD’s” unit of the  
Health Education curriculum.
